(b) that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. "Executable Form" means any form of the work other than Source Code Form.

either its Contributions or its
Contributor Version.

indirect, to cause the direction or
management of such entity, whether by
contract or otherwise, or (b) ownership

outstanding shares or beneficial
ownership of such entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants
You a world-wide, royalty-free, non-
exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

(a) for any code that a Contributor has removed from Covered Software; or

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

(c) under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the

winscp.5.13.4.nupkg

terms of this License, and how they can
obtain a copy of this License. You may
not attempt to alter or restrict the
recipients' rights in the Source Code
Form.

3.2. Distribution of Executable
Form

If You distribute Covered
Software in Executable Form then:

(a) such Covered Software must
also be made available in Source Code
Form, as described in Section 3.1, and
You must inform recipients of the
Executable Form how they can obtain a
copy of such Source Code Form by
reasonable means in a timely manner, at
a charge no more than the cost of
distribution to the recipient; and

(b) You may distribute such
Executable Form under the terms of this
License, or sublicense it under
different terms, provided that the
license for the Executable Form does
not attempt to limit or alter the
recipients' rights in the Source Code
Form under this License.

3.3. Distribution of a Larger
Work

You may create and distribute a
Larger Work under terms of Your choice,
provided that You also comply with the
requirements of this License for the
Covered Software. If the Larger Work is
a combination of Covered Software with
a work governed by one or more
Secondary Licenses, and the Covered
Software is not Incompatible With
Secondary Licenses, this License
permits You to additionally distribute
such Covered Software under the terms
of such Secondary License(s), so that
the recipient of the Larger Work may,
at their option, further distribute the
Covered Software under the terms of
either this License or such Secondary
License(s).

3.4. Notices

You may not remove or alter the
substance of any license notices
(including copyright notices, patent
notices, disclaimers of warranty, or
limitations of liability) contained
within the Source Code Form of the
Covered Software, except that You may
alter any license notices to the extent
required to remedy known factual
inaccuracies.

3.5. Application of Additional
Terms

You may choose to offer, and to
charge a fee for, warranty, support,
indemnity or liability obligations to
one or more recipients of Covered
Software. However, You may do so only
on Your own behalf, and not on behalf
of any Contributor. You must make it
absolutely clear that any such
warranty, support, indemnity, or
liability obligation is offered by You
alone, and You hereby agree to
indemnify every Contributor for any
liability incurred by such Contributor
as a result of warranty, support,
indemnity or liability terms You offer.
You may include additional disclaimers
of warranty and limitations of
liability specific to any jurisdiction.

4. Inability to Comply Due to
Statute or Regulation

If it is impossible for You to
comply with any of the terms of this
License with respect to some or all of
the Covered Software due to statute,
judicial order, or regulation then You
must: (a) comply with the terms of this
License to the maximum extent possible;
and (b) describe the limitations and
the code they affect. Such description
must be placed in a text file included
with all distributions of the Covered
Software under this License. Except to
the extent prohibited by statute or

regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

6. Disclaimer of Warranty

   Covered Software is provided under
this License on an "as is" basis,
without warranty of any kind, either
expressed, implied, or statutory,
including, without limitation,
warranties that the Covered Software is
free of defects, merchantable, fit for
a particular purpose or non-infringing.
The entire risk as to the quality and
performance of the Covered Software is
with You. Should any Covered Software
prove defective in any respect, You
(not any Contributor) assume the cost
of any necessary servicing, repair, or
correction. This disclaimer of warranty
constitutes an essential part of this
License. No use of any Covered Software
is authorized under this License except
under this disclaimer.

7. Limitation of Liability

   Under no circumstances and under no
legal theory, whether tort (including
negligence), contract, or otherwise,
shall any Contributor, or anyone who
distributes Covered Software as
permitted above, be liable to You for
any direct, indirect, special,
incidental, or consequential damages of
any character including, without
limitation, damages for lost profits,
loss of goodwill, work stoppage,
computer failure or malfunction, or any
and all other commercial damages or
losses, even if such party shall have
been informed of the possibility of
such damages. This limitation of
liability shall not apply to liability
for death or personal injury resulting
from such party's negligence to the
extent applicable law prohibits such
limitation. Some jurisdictions do not
allow the exclusion or limitation of
incidental or consequential damages, so
this exclusion and limitation may not
apply to You.

8. Litigation

Any litigation relating to this
License may be brought only in the
courts of a jurisdiction where the
defendant maintains its principal place
of business and such litigation shall
be governed by laws of that
jurisdiction, without reference to its
conflict-of-law provisions. Nothing in
this Section shall prevent a party's
ability to bring cross-claims or
counter-claims.

9. Miscellaneous

This License represents the complete
agreement concerning the subject matter
hereof. If any provision of this
License is held to be unenforceable,
such provision shall be reformed only
to the extent necessary to make it
enforceable. Any law or regulation
which provides that the language of a
contract shall be construed against the
drafter shall not be used to construe
this License against a Contributor.

10. Versions of the License

10.1. New Versions

Mozilla Foundation is the license
steward. Except as provided in Section
10.3, no one other than the license
steward has the right to modify or
publish new versions of this License.
Each version will be given a
distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered
Software under the terms of the version
of the License under which You
originally received the Covered
Software, or under the terms of any
subsequent version published by the
license steward.

10.3. Modified Versions

If you create software not

governed by this License, and you want
to create a new license for such
software, you may create and use a
modified version of this License if you
rename the license and remove any
references to the name of the license
steward (except to note that such
modified license differs from this
License).

    10.4. Distributing Source Code
Form that is Incompatible With
Secondary Licenses

    If You choose to distribute
Source Code Form that is Incompatible
With Secondary Licenses under the terms
of this version of the License, the
notice described in Exhibit B of this
License must be attached. Exhibit A -
Source Code Form License Notice

This Source Code Form is subject to the
terms of the Mozilla Public License, v.
2.0. If a copy of the MPL was not
distributed with this file, You can
obtain one at
http://mozilla.org/MPL/2.0/.

If it is not possible or desirable to
put the notice in a particular file,
then You may include the notice in a
location (such as a LICENSE file in a
relevant directory) where a recipient
would be likely to look for such a
notice.

You may add additional accurate notices
of copyright ownership.

Exhibit B - "Incompatible With
Secondary Licenses" Notice

This Source Code Form is "Incompatible
With Secondary Licenses", as defined by
the Mozilla Public License, v. 2.0.
